

Using Learn Math Quickly

(See front pages in each workbook or online for more detail.)

1. Test the prospective students using pre-tests from the workbook or assign the students to take the test online at www.learnquickly.com. Use the results to place the students at the appropriate streaming level or with the appropriate DVD. (see Time and Topics Chart www.vbkates.com 7.4

1.1 Students may self select to begin at a lower level than tests prescribe.

2. Provide the students with appropriate worksheets and tests to accompany the lesson. You may choose to provide the students the answer key or retain it and test them separately.

3. As the students work through the lessons, the teacher on screen will advise them when to stop and complete the appropriate work sheets. Checking and reviewing completed work is at your option.

4. Move the students to the next lesson.
